ReCampus

CATALOGUE · 2026–27

Your School. Its Next Chapter.

Complete School Transformation Solutions

Everything your school needs to move forward, from the notebook in a student's bag to the platform that runs the office.

WHAT WE BRING TOGETHER

- Technology
- Infrastructure
- Learning
- Identity
- Growth

WHO WE ARE

Everything your school needs to move forward.

A school is never one project. In the same year, a principal may be moving records off paper, rebuilding the website, equipping classrooms, renewing uniforms and printing ID cards. Each of these usually means a different vendor, a different contact and a different timeline.

ReCampus brings technology, infrastructure, academic solutions, digital learning, school identity, student development and growth solutions together under one ecosystem. We plan with your team, deliver what the school needs, and stay on as the partner you call when something changes.

We are not a catalogue of unrelated products. The pieces are designed to work together: ID cards print from your LMS records, your website carries the online admission form, and the same school identity runs from the app on a parent's phone to the notebook in a student's bag.

OUR PROMISE

One school. Multiple needs. One trusted partner.

Helping every school grow, evolve and prepare for what comes next.

- One point of contact for every solution
- One consistent identity, physical and digital
- Solutions planned around your academic calendar
- Training and support after delivery

FIVE SOLUTION AREAS · ONE ECOSYSTEM

04 School Essentials	Notebooks · Uniforms · Ties and belts · Blazers · ID cards · Lanyards · Stationery	21
05 Complete School Transformation	Integrated packages · How we work together	29
Contact		32

Sizes, quantities, materials, configurations and plan features are confirmed with your school before production, installation or go-live. Prices are shared in a quotation after we understand your requirements. Product photographs show samples; your school's own designs replace them.

ReCampus

01

Digital School

One connected platform for the office, the classroom and home.

In this section

ReCampus School LMS

Basic, Pro and Enterprise plans

Web portal and mobile app

AI tools, reports and security

RECAMPUS SCHOOL LMS

One system runs the whole school.

Admissions, academics, attendance, exams, fees, staff, communication and reports in one platform. The office uses the web portal; teachers, students and parents use the mobile app.

Who	Where	What they do
Super Admin owner / principal	WEB	Everything: setup, settings, permissions, fees, exams, AI tools and reports
Admin office staff	WEB	Day-to-day work allowed by the permissions matrix: admissions, fee collection, attendance, notices
Management	WEB	A read-focused management dashboard and reports
Teachers	MOBILE APP	QR check-in, class register, subject attendance, marks entry, leaves, notices, salary slips
Students and parents	MOBILE APP	Attendance, marks and results, fees and dues, fee structure, transport, notices, profile

Your own website

Each school runs on its own domain with HTTPS, its logo and name on every screen and printout.

Live updates

When the office saves a change, open dashboards refresh on their own.

Works on any screen

The web portal adapts to laptops, tablets and phones.

Built-in guide

A book icon on every page opens step-by-step walkthroughs and over 100 FAQs.

LMS PLANS

Three plans. One platform.

Every plan runs on the same ReCampus School LMS. Choose how far you want the platform to carry your school's own brand and processes.

PLAN 1

Basic

Everything you need

A complete LMS with the essential features for managing learning, communication and school operations.

SUITS

Schools that want the full LMS running quickly, with the office on the web portal and teachers, students and parents on the mobile app.

PLAN 2

Pro

Your school, your brand

Everything in Basic, plus your school's own branding on dedicated apps available on the Google Play Store and Apple App Store.

SUITS

Schools that want families and staff to download an app in the school's own name and branding.

PLAN 3

Enterprise

Built around your school

A fully customised digital ecosystem, with features, workflows, branding and integrations tailored to your school's specific needs.

SUITS

School groups and schools with their own processes, or existing systems the LMS must connect to.

Compare	Basic	Pro	Enterprise
Essential LMS features	Admissions, academics, attendance, exams, fees, communication and reports	Everything in Basic	Everything in Basic
Web portal and mobile app	Office on the web; teachers, students and parents on the app	Everything in Basic	Everything in Basic
School branding	School logo and name on every screen and printout	Plus dedicated school-branded apps on Google Play Store and Apple App Store	Fully customised branding across the ecosystem
Features and workflows	Standard ReCampus features	Standard ReCampus features	Tailored to your school's processes
Integrations	—	—	Integrations with the systems your school uses

Not sure which plan fits? We start with a personalised demonstration and a look at how your school works today, then recommend a plan. Features and pricing for your plan are confirmed in your quotation.

STUDENTS AND STAFF

Every record, from admission to leaving.

Students and admissions

Every student has one record covering admission to leaving, and every student gets an app login on admission.

New admission. A full admission form with personal, parent, address and academic details, plus photo.

Online admission form. A public Apply page on the school website. Parents apply online; the office reviews each application and converts it into a student in one click.

Student list. Search and filter by class, section, status and more; open any student's full profile.

Student profile. Personal details, class history, attendance, marks, fees and dues on one page.

Roll numbers. Assign or re-order roll numbers for a whole section at once.

Login credentials. Usernames and starting passwords are created automatically. Print credential slips for a class; students change the password at first login.

Profile change requests. Students ask for corrections from the app; nothing changes without office approval.

Promotion. At year end, promote students class by class into the new academic year.

Leavers. Mark students as left or transferred instead of deleting them, so history is kept.

ID cards. Print student and staff ID cards.

Teachers and staff

Staff records, leaves, salary and ID cards are managed in one place.

Staff records. Teaching and non-teaching staff with personal, contact, qualification and joining details.

Class and subject teachers. Assign a class teacher to each section and subject teachers to each class. Each teacher sees only their own classes and subjects.

Staff leaves. Teachers apply from the app; the office approves or rejects and the teacher is notified.

Salary management. Set salary and deductions, then generate monthly salary slips that staff view in the app.

Staff ID cards. Printable ID cards with photo and school branding.

Profile change requests. Staff request corrections from the app; the office approves them.

Staff in more than one school. A teacher or owner working in two schools on the platform switches between them without logging in again.

ACADEMICS AND ATTENDANCE

From nursery to Class 12, in one setup.

Academics and timetable

The academic setup handles everything from nursery to Class 12, including streams and electives for higher secondary.

Academic years. Create each session; records stay separated by year.

Classes and sections. Any number of classes and sections, each with its class teacher.

Subjects. Compulsory, elective and grade-only subjects (such as Art or GK). Subjects can have separate theory and practical parts.

Board subject catalogue. For Class 11 and 12, pick subjects from the ASSEB or CBSE list; the system checks the board's combination rules.

Streams. Label Class 11/12 sections as Science, Commerce or Arts.

Elective groups. Define elective choices and ready-made subject bundles, then assign a whole class in one step.

Student electives. Record each student's electives so marks, attendance and fees follow the right subjects.

Teacher assignments. Map teachers to class and subject pairs.

Timetable. Set periods and fill the weekly grid by hand, or auto-generate it.

Holiday list. The school calendar of holidays, used by attendance.

Attendance

Teachers check in by QR code from their phone, and class teachers mark the student register in the app.

Teacher QR check-in. Teachers scan the school QR code on arrival. The phone's location is checked against the campus, so check-in only works on site.

Multiple campuses. Register every campus; check-in works at any of them.

Time rules. Set on-time and late cut-off times, with a separate Saturday half-day timing.

Student attendance. The class teacher marks present, absent or leave for each student, daily.

Subject attendance. For Class 11/12, attendance per subject period, with a 75% eligibility report showing who is short.

My attendance. Teachers and students see their own attendance history.

Holidays. Holidays from the school calendar are excluded automatically.

Reports. Daily and monthly attendance reports for classes and staff.

EXAMS AND RESULTS

A clear path from exam to result.

Create the exam, publish it to teachers, enter marks, then publish results class by class. Every step is controlled by the office.

1

Create the exam

Choose classes, dates and full marks per class. Mark it theory plus practical (such as 70 + 30) if needed.

2

Publish to teachers

Per class. Teachers can enter marks only for classes you have published.

3

Enter marks

On the web or in the app, only for their own subjects. Electives show only the students who take them.

4

Publish results

Per class. Students see results in the app only after you publish them.

Marks, report cards and marksheets

Results that are accurate, protected and ready to print.

Marks lock. Once marks are submitted, only the admin can change them, which prevents silent edits.

Theory and practical pass marks. Each part can have its own pass rule (CBSE style, 33% each).

Report cards. Printable report cards with subject-wise grades, remarks and attendance.

Marksheets. Total, percentage, rank and a pass/fail verdict. The pass rule is set per school, per subject or overall, or the verdict can be hidden.

Excel export. Download one student's marksheet, or the whole class with subjects as columns.

Exam reports. Subject and class performance analysis.

Schedules, admit cards and question papers

Everything around the exam, from the timetable to the paper itself.

Exam schedule. Schedule each paper for each class.

Admit cards. Print admit cards for a whole class, one per page.

Admit card designer. Design your own admit card layout, fonts and fields.

AI question paper builder. Upload the syllabus or chapter PDFs, or scan pages with a phone, then generate a class test, practice sheet or full exam paper. Print it on your letterhead.

FEES AND ACCOUNTS

Know what is due, collect it and track it.

The system works out what each student owes, collects it with printed receipts, and tracks dues, expenses and income.

Setting up fees

Build the fee structure once for the year.

Fee structure per class. Tuition and other heads for each class.

Monthly or instalments. Charge monthly, or in 2, 3, 4 or 6 instalments a year.

Admission fee. A one-time fee charged to new admissions.

One-time fees. Books, uniform, annual charges and more, for new students only or for everyone once a year.

Subject-wise fees. Optional extra fees by subject, such as a lab fee for Computer Science.

Late fees. Automatic late fee after the due date (monthly mode).

Collecting fees

Search a student and see exactly what is due.

Fee collection. See what is due month by month, and collect.

Student fee profile. Full payment history and pending dues on one page.

Partial payment. Take part of a fee now and keep the balance as a pending due.

Pay later. Record a fee as due without collecting it yet.

Class-wide entry. Apply a fee to a whole class in one step.

Receipts. Printed receipts with the school's name and logo.

Parent view. Students and parents see dues, payment history and fee structure in the app.

Tracking money

Clear reports for the office and the owner.

Fees Due report. Who owes what, by class.

Fee collection report. Collections by day, month, class or payment mode.

Accounting. Record expenses and donations, with an income and expense dashboard for the April–March financial year.

Fraud checks. Fee records are checked every few minutes; unusual activity, such as a payment recorded lower than the amount due, is flagged on the owner's fraud dashboard.

COMMUNICATION AND THE MOBILE APP

The right message, on the right phone.

Notices and communication

Notices reach the right people instantly, on the web and as phone notifications.

Noticeboard. Publish notices to everyone, or only to students, teachers or particular classes. Attach files.

App notifications. Phone notifications for new notices, leave decisions and profile request updates.

AI notice drafting. Draft a notice from a few words.

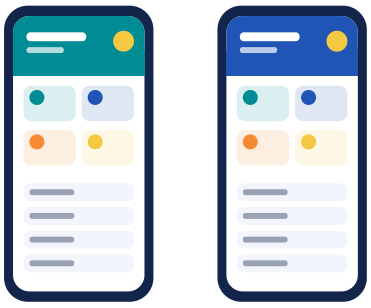

AI letter writer. Write formal letters to parents, staff or authorities from templates or free text, ready to print.

Password reset by SMS. Teachers reset a forgotten password with a one-time code sent to their phone.

Mobile app

Teachers, students and parents log in with the school code, so one app serves every school, each with its own logo. The app tells users when a new version is available.

Teacher app	Student and parent app
QR check-in with campus location check	Home dashboard with today's summary
Mark the daily class register	Attendance history
Subject-wise attendance (Class 11/12)	Marks and published results
Enter exam marks for own subjects	Fee dues and payment history
View student details	Fee structure
Apply for leave	Transport route and stop
Salary slips	Notices
Notices	Profile, with change requests
Profile, change requests and password	Change password

One app for the whole school community

Teachers spend less time on registers and paperwork; parents see attendance, results, fees and notices without calling the office. Student and teacher accounts work in the app only and cannot log in to the office web portal.

DASHBOARDS, AI TOOLS AND MODULES

School-wide insight, with AI where it saves time.

Dashboards and reports

Every role opens to its own dashboard, and the owner gets school-wide reports.

Role dashboards. Separate dashboards for the owner, admin, management, teachers and students.

Reports. Overview, Daily Report, Monthly Report, Attendance, Fee Collection, Fees Due and Exam Performance.

AI tools

Available to the owner, with monthly credits.

Coco, the AI assistant. A chat helper on every page that answers questions about your school's data.

AI insights. Report card remarks, notice drafting and question papers from one screen, with a usage log.

Letter writer and question paper builder. Formal letters and exam papers, ready to print.

Yearbook compiler. Build the school yearbook section by section, edit it, then print.

Inventory and stock

Optional module.

Inventory. Categories, items, stock in and out.

Stock ledger and reports. A running ledger and stock reports for the office.

Transport

Optional module.

Routes and stops. Vehicles, routes and stops, student assignments and transport reports.

In the app. Students see their route and stop in the app.

Please note. GPS vehicle tracking is not included.

Settings and help

School info

Name, logo, address and contact details, used on every printout.

LMS settings

Session, attendance timings, campuses, marksheet pass rules and other school-level choices.

Guide and help

25 step-by-step walkthroughs that highlight each button on screen, and 105 FAQs in 14 categories, for every role.

SECURITY AND GETTING STARTED

Your school's data stays your school's.

Data is separated school by school, and every role sees only what it should. Submitted marks are locked and fee records are checked automatically.

Separate database per school

Each school's data is kept in its own database. No school can see another school's data.

Permissions matrix

The owner decides exactly which pages and actions each role can use.

Secure login

HTTPS on every school website, encrypted passwords and optional two-step verification (MFA) for admins.

App-only accounts

Student and teacher accounts cannot log in to the office web portal.

Approval before changes

Student and staff profile edits from the app need office approval.

History is kept

Leavers are marked as left, not deleted, so old records and receipts stay available.

GETTING STARTED

From sign-up to your first school day on the LMS

1

Setup

School information, classes, subjects, fee structure and settings.

2

Data import

Existing student and staff records are brought into the system.

3

Training

Office staff and teachers learn the workflows they will use.

4

Support

Ongoing assistance after go-live, plus the built-in guide.

See it with your own school's workflow. We offer a personalised LMS demonstration for principals and office teams before you decide.

CLOUD INFRASTRUCTURE

aws Google Cloud Microsoft Azure

Secure hosting, scheduled backups and controlled access designed for dependable school operations.

ReCampus

02

School Growth

Help the right families find, understand and choose your school.

In this section

School website

Online presence

Digital marketing

Branding

WEBSITE AND ONLINE PRESENCE

Your school's front door, open all year.

Most families look a school up online before they visit. We make sure what they find is accurate, clear and easy to act on.

School website

A clear, mobile-friendly website that explains who you are and what you offer, and makes the next step obvious for parents.

Your story. About the school, leadership, academics, facilities and achievements.

Admissions. Admission information, with the LMS online Apply form so applications reach the office directly.

News and gallery. Events, notices and photographs kept up to date.

Your own domain. Runs on your school's domain with HTTPS.

Works on any phone. Designed for the screens parents actually use.

Search and map listings

When a parent searches for schools nearby, your listing should be complete and correct.

Listing setup. Accurate name, address, contact details, hours and photographs on search and map listings.

Reviews and questions. Guidance on responding to parent reviews and questions professionally.

Social media presence

Consistent, regular posts that show real school life.

Profiles set up. School profiles on the platforms your families use, in your school identity.

Content calendar. Planned posts around admissions, events, results and celebrations.

Design templates. Branded templates so posts look consistent.

DIGITAL MARKETING AND BRANDING

Grow with a clear, consistent identity.

Admission campaigns

Planned digital campaigns for the admission season, with enquiries routed to your office.

Campaign planning. Timing, audience and message agreed with your team before anything goes live.

Social and search ads. Campaigns on social media and search to reach families in your area.

Enquiry handling. Enquiries collected in one place so the office can follow up quickly.

Open days and events. Promotion for open days, orientations and school events.

School branding

A school identity that looks the same on a notebook, a gate banner and a phone screen.

Logo review or refresh. Improve an existing logo or create one, with your management's approval.

Brand guidelines. Colours, typography and logo rules your staff and vendors can follow.

Templates. Notices, certificates, letterheads, social posts and presentations.

Applied everywhere. The same identity across Digital School, Smart School and Essentials.

WHAT WE REPORT

Clear numbers, honest limits.

Each campaign comes with a simple report: reach, enquiries received and spend. We do not promise admission numbers; enrolment depends on your school and on how enquiries are followed up. We help you see what works and adjust.

School photography

Real, permissioned photographs of your classrooms, campus and events for use online and in print.

Parent communication

Newsletters and announcements in your school's voice, alongside LMS notices.

School stories

Achievements, programmes and student work, shared consistently across channels.

ReCampus

03

Smart School

Technology for classrooms that teach, show and share.

In this section

Interactive LED touch panels

65-inch and 75-inch models

Specifications and connectivity

INTERACTIVE LED TOUCH PANEL

One screen for teaching, writing and sharing.

An all-in-one interactive 4K touch display running Android 16 with 8 GB RAM and 128 GB storage. Available in 65-inch and 75-inch sizes, both backed by a 3-year onsite warranty.

4K	Android 16	40-point	3 years
UHD display	8 GB / 128 GB	IR touch	onsite warranty

MODEL

65-inch panel

For standard classrooms and smaller rooms. 1429 × 805 mm display area.

MODEL

75-inch panel

For larger classrooms, labs and seminar rooms. 1641 × 920 mm display area.

Both sizes share the same 4K resolution, Android 16 platform, touch, audio and connectivity. They differ in screen size, weight and power use (see page 19).

Writes like a pen on paper

Zero bonding technology keeps writing low in parallax, so ink appears right under the stylus, with wider viewing angles.

4K Ultra HD display

3840 × 2160 resolution with a full-channel 4K interface, so text, diagrams and video stay sharp from the back of the room.

Built for teamwork

40-point high-precision IR touch and dual pens in different colours let two students write together.

Tough, anti-glare surface

4 mm anti-glare tempered glass protects the screen in daily classroom use.

Classroom tools

Eye protection, screen lock and touch lock, plus support for multiple users.

Network ready

One network connection serves both Android and the optional OPS PC, with network sharing support.

Room-filling audio

Built-in 20 W × 2 speakers for lessons, videos and announcements.

OPS PC optional

Add an integrated OPS PC module for schools that want a full PC inside the panel.

SPECIFICATIONS

65-inch and 75-inch, side by side.

Specification	65-inch panel	75-inch panel
DISPLAY		
Screen size	65 inch	75 inch
Display area	1429.3 × 804.9 mm	1640.8 × 920 mm
Resolution	3840 × 2160 (4K UHD)	
Brightness · contrast	450 cd/m² · 5000:1	
Colours	1.07 billion (10-bit)	
Viewing angle · ratio	178° (H/V) · 16:9	
Refresh rate · response	60 Hz · 5 ms	
Backlight · lifetime	DLED · over 60,000 hours	
TOUCH AND GLASS		
Touch	40-point IR touch	
Touch response	First point ≤ 5 ms, continuous ≤ 2 ms; scanning 120 frames/s	
Touch surface	Zero bonding, 4.0 mm anti-glare fully toughened glass	
Writing protection	Toughened explosion-proof glass, Mohs class 7	Toughened explosion-proof glass, Mohs class 9
SYSTEM		
Chipset · CPU · GPU	RK3576 · octa-core · Mali-G52	
Memory · storage	8 GB RAM · 128 GB	
Operating system	Android 16.0	
Video formats	RM, RMVB, MPEG-1/2/4, AVI, MP4 · PAL/NTSC/SECAM	
Audio output	20 W × 2	
PHYSICAL AND POWER		
Overall size	1485.7 × 903 × 88.8 mm	1706 × 1027 × 87.8 mm
Packing size	1635 × 1050 × 220 mm	1860 × 1160 × 220 mm
Net / gross weight	45 / 50 kg	54 / 59 kg
Power consumption	210 W	270 W
Standby power	< 0.5 W	
Voltage	100–240 V, 50/60 Hz	
Wall mount screws	M8 × 25 mm	
Operating environment	0–40 °C, 10–90% RH	
Storage environment	−10–60 °C, 10–90% RH	

A single value across both columns applies to both models. Specifications are from the manufacturer's data sheets and may change; confirm current specifications with your quotation.

CONNECTIVITY AND WHAT'S INCLUDED

Ready for the devices your teachers already use.

Connect laptops, cameras, document visualisers, speakers and storage. Every panel ships with what it needs to be wall-mounted and used on day one.

Ports and interfaces

VIDEO IN	HDMI × 3 HDMI touch port × 2 Type-C × 1
DATA AND NETWORK	USB × 6 (USB 3.0 × 5, USB 2.0 × 1) LAN in (RJ45) × 1 TF card slot × 1
OUT	HDMI out × 1 LAN out × 1
AUDIO	Earphone × 1 SPDIF coaxial × 1 Mic in × 1
CONTROL	RS232 × 1

Same ports on both the 65-inch and 75-inch models.

In the box

- **Power cable** 1.5 m
- **HDMI cable** 1.5 m
- **USB cable** 1.5 m
- **Remote control** with batteries
- **Wall mount** included
- **Stylus** × 2

3-year onsite warranty

Total peace of mind: support comes to your school for three years.

Optional OPS PC

An integrated OPS PC module can be added for schools that want a built-in PC alongside Android.

Pairs with the ReCampus School LMS

Use the panel's browser to open lessons, notices and AI-built question papers prepared in the LMS.

Plan by room

We help you decide which rooms need 65-inch or 75-inch panels before you order.

One partner

Panels, platform and training come from one team, with one point of contact.

ReCampus

04

School Essentials

The everyday essentials that keep your school moving.

In this section

Notebooks

Uniforms, ties and belts

Blazers

ID cards and lanyards

Stationery

CUSTOMISED NOTEBOOKS

Put your school on every page.

Notebooks students carry every day, designed around your school's identity and planned class by class for the year.

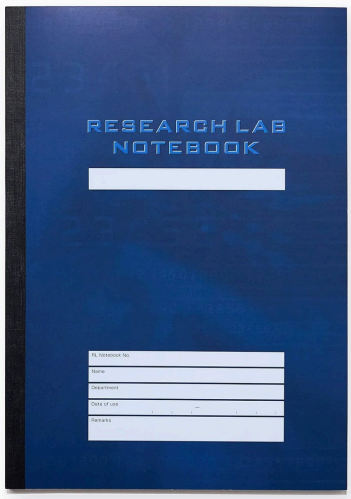

Basic Notebook

Your school on every page, every day.

A practical notebook for daily classwork and homework. The cover carries your school's name, logo and colours, so every student's book is recognisably part of your school. Covers can be designed as one school-wide look or in a different colour for each class or subject.

- Custom school cover
- School logo and identity
- Multiple sizes
- Multiple configurations

Ideal for: Daily classwork, homework and rough work across all classes.

Activity / Lab Notebook

Made for practicals, activities and records.

A notebook for lab records, practical work, projects and activity periods. The cover carries your school identity with space for the student's name, class, subject and dates, and the inside is configured for how each class records its work.

- Custom school cover
- Name, class and subject fields on the cover
- Flexible configuration
- School identity throughout

Ideal for: Science practicals, lab records, activity and project work.

Photographs show sample covers. Your school's cover design, page counts, paper, ruling and binding are agreed with you before production.

SCHOOL UNIFORMS

Designed around your school.

A full uniform range made in your school's colours and identity, in multiple sizes for every class.

Half Shirt

The everyday standard.

A short-sleeved school shirt for daily wear, made in your school's colours.

- Multiple sizes
- School-specific customisation
- School logo placement

Full Shirt

Formal and year-round.

A long-sleeved shirt for formal days, assemblies and cooler months.

- Multiple sizes
- School-specific customisation
- School logo placement

Full Pant

Coordinated with the shirt.

Full-length trousers in coordinated school colours to complete the daily uniform.

- Multiple sizes
- Coordinated school colours

Skirt

Designed for your school.

A pleated school skirt in your school's design and colours, coordinated with the shirt.

- Multiple sizes
- School-specific design

Polo T-Shirt

A contemporary option.

A modern uniform option for activity days, sports days or everyday wear, with contrast collar and sleeve tipping.

- Multiple sizes
- School customisation
- School logo

EVERY UNIFORM ITEM

Made to your school's specification

- Your school colours, matched across shirts, pants, skirts, ties and belts
- Logo or identity placement agreed with you
- Multiple sizes, planned class by class
- One supplier for the full uniform set

Fabric and finishing details are confirmed with your school before production. Colours shown are samples.

TIES AND BELTS

The details that complete the uniform.

School ties and belts in your school's colours, made to match the rest of the uniform so every student looks part of the same school.

School tie

Your colours, your stripe.

A striped school tie in your school's colours. Choose the stripe pattern, from bold block stripes to fine double lines, to suit your uniform and to set apart houses or senior classes if you wish.

- School colours
- Stripe pattern options
- Multiple sizes
- Coordinated with shirt, pant and skirt

School belt

Your crest on every student.

A school belt with a metal buckle carrying your school's crest and name, on striped webbing in your school colours. It finishes the uniform and makes your school identity visible on every student.

- Custom buckle with school crest and name
- Striped webbing in school colours
- Multiple sizes
- Matched to the tie and uniform colours

The complete uniform, from one partner

HALF SHIRT · FULL SHIRT · FULL PANT · SKIRT · POLO T-SHIRT · TIE · BELT · BLAZER

Photographs show sample ties and belts. Your school's own colours, stripe pattern and crest are used for your order.

BLAZERS

Premium presentation.

A tailored school blazer for occasions where your school is on show: assemblies, annual functions, prize days and inter-school events.

School blazer

A formal blazer that gives students and staff a polished, institutional appearance, with your school's logo and identity. The sample shown has contrast piping on the lapels, pockets and hem, and crested buttons.

- Multiple sizes
- School customisation
- School logo and identity
- Formal institutional appearance

MATERIAL OPTIONS

OPTION 1

Sangam

Blazer material from the Sangam range.

OPTION 2

Vimal

Blazer material from the Vimal range.

Material shade and finish are chosen with your school from the available options.

HOW A UNIFORM ORDER COMES TOGETHER

1

Share your identity

Your school colours, logo and the uniform you use today.

2

Design and approve

We prepare the design for each item; you approve it.

3

Plan sizes

Size requirements are planned class by class.

4

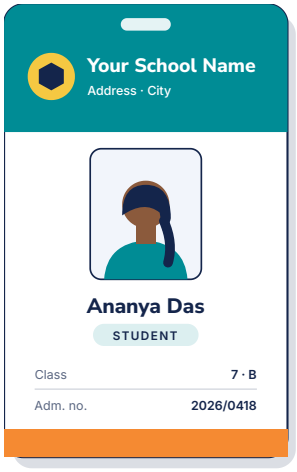

Deliver

Uniforms are supplied ready for your session.

ID CARDS

One card. One school identity.

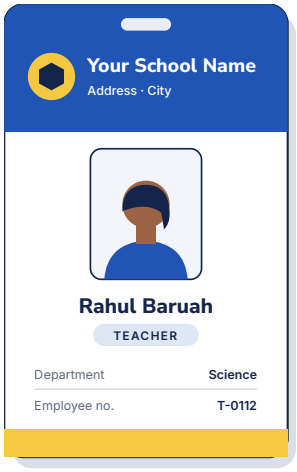

Professionally designed ID cards for students, teachers and staff, carrying your school's logo, the cardholder's photograph and their details.

Student ID cards

A daily identity card for every student, designed in your school's colours with photograph and student information.

- School logo and name
- Student photograph
- Student information, such as name, class and admission number
- Consistent design across all classes

Teacher and staff ID cards

Identity cards for teaching and non-teaching staff, so visitors, parents and students can recognise school staff at a glance.

- School logo and name
- Staff photograph
- Employee information, such as name, role and employee number
- Separate design for teaching and non-teaching staff if required

Connected to your records. Schools using the ReCampus School LMS can print student and staff ID cards with photo and school branding directly from their records, so details stay current when students join or move class.

Card designs shown are layout examples with sample names. Fields, layout, orientation and finish are agreed with your school. Lanyards and holders are on the next page.

LANYARDS AND CARD HOLDERS

Worn every day. Seen everywhere.

Lanyards and card holders that keep ID cards visible and protected, in your school's colours.

Plain lanyards

Solid-colour lanyards in more than 20 colours, matched to your school colours. Woven for daily wear, with a metal swivel hook.

Satin lanyards

A smooth satin finish with a richer look, in 12 mm, 16 mm and 20 mm widths. Suited to staff, events and senior classes.

Slim lanyards

A slim 12 mm lanyard for everyday wear by students and staff, light and comfortable for the whole school day.

Coloured card holders

Hard holders in a range of colours. Use one school colour, or a different colour for each house, class or staff group.

Clear card holders, vertical

A transparent holder for portrait ID cards, so the whole card stays visible and protected.

Clear card holders, horizontal

A transparent holder for landscape ID cards, with the same slot for the lanyard.

Lanyard options

Width. 12, 16, 20 or 25 mm

Length. 36 inches (about 900 mm)

Hooks. Swivel hook, J-hook, side-lever hook or plastic hook

Printing. School name and logo printed on the lanyard

Holder options

Colours. Coloured or clear holders

Orientation. Vertical or horizontal, to match your ID card

Fit. Sized for standard ID cards, with a slot for the lanyard

Matching. Holder and lanyard colours chosen with your school

SCHOOL STATIONERY

Your identity, wherever your school appears.

The everyday printed items that carry your school's name beyond the classroom, designed to match your ID cards and notebooks.

School diary

A school-branded diary for homework, notes and communication between school and home.

- Custom school cover
- School identity throughout
- Configured for your school year

Certificates

Certificates for achievement, participation and events, designed in one consistent school style.

- School logo and colours
- Templates for different occasions
- Space for names and signatures

Letterheads and official stationery

Letterheads, envelopes and official stationery so every letter from the office carries the same identity.

- School logo and address
- Consistent design across items
- Matches your other printed material

One identity, applied the same way everywhere.

We keep your logo, colours and layout consistent across your LMS and app, website, notebooks, uniforms, ID cards and stationery. If your school does not yet have brand guidelines, we can create them with you (see School Growth, page 16).

Complete School Transformation

Integrated packages combining multiple ReCampus solutions.

In this section

Integrated packages

How we work together

INTEGRATED PACKAGES

Start where your school is. Grow from there.

Four starting points that combine ReCampus solutions. Each package is configured to your school's size, priorities and timeline.

	Foundation Essentials and identity	Smart Classroom Technology for teaching	Digital Campus Platform and growth	Complete Every solution, one plan
ReCampus School LMS (Basic, Pro or Enterprise)	–	○	●	●
Website and online presence	–	–	●	●
Digital marketing and branding	–	–	○	●
Interactive touch panels	–	●	–	●
Customised notebooks	●	–	–	●
Uniforms, ties, belts and blazers	●	–	–	●
ID cards, lanyards and stationery	●	–	○	●
Training and support	○	●	●	●

● Included ○ Optional add-on

Foundation

For schools starting a new session or refreshing their identity.

Notebooks, uniforms, ID cards and stationery in one coordinated design, delivered for the start of the year.

Smart Classroom

For schools upgrading teaching in selected rooms or across the campus.

Interactive panels for the rooms you choose, with the option to add the LMS so lessons, papers and notices live in one place.

Digital Campus

For schools moving the office and communication online.

The ReCampus School LMS with setup, data import and training, plus a website and online presence that bring families to your Apply page.

Complete

For schools ready to plan everything together.

All five areas in one roadmap, one quotation and one point of contact, phased around your academic calendar.

Package contents can be changed in either direction. Quotations are prepared after a needs review with your school.

HOW WE WORK TOGETHER

A partner, not just a supplier.

1
Understand
We meet your leadership team and walk through what the school needs now and next.

2
Plan
One roadmap and one quotation, phased around your academic calendar and budget.

3
Deliver
Products are produced and supplied, panels delivered, and the LMS set up with your data.

4
Train
Office staff and teachers learn the tools and workflows they will use every day.

5
Support
One point of contact for questions, reorders, changes and next steps.

WHY SCHOOLS CHOOSE ONE PARTNER

One partner
One team and one contact for physical, digital and growth needs, instead of several vendors.

One identity
Your logo and colours applied the same way on every product and screen.

Solutions that connect
ID cards print from the LMS; the website carries the Apply form; panels open LMS content.

Planned in phases
Start with what matters most this session and add the rest when you are ready.

FOR SCHOOL LEADERS

Bring us your list. We'll help you put it in order.

Whether it is one item for next month or a plan for the next three years, the first conversation is about your school, not our catalogue.

ReCampus

Let's plan your school's next chapter.

Talk to us about one product or your whole school. We offer a personalised demonstration of the ReCampus School LMS and a needs review for everything else.
